

Boilermaker Apprenticeship Transition – Apprentices Entering into the Boilermaker Apprenticeship

Impact on your Apprenticeship

As you're at the beginning of your apprenticeship, this change will not effect your position in the apprenticeship program. Once your apprenticeship contract has been secured with Alberta apprenticeship you can register for the first available First Level technical training.

Registration for your first period of technical training will start Friday June 19, 2009. For further information you can refer to Alberta Apprenticeship's website www.tradesecrets.org. If you have questions or concerns feel free to contact the Boilermaker Apprenticeship Agency (780)451-5992 ext 247.
